

HARJOT SINGH

FULL STACK DEVELOPER

Mohali, India 140301 • +91 98768-91038 • hrjotsingh96@gmail.com • linkedin.com/in/harjots1396

PROFESSIONAL SUMMARY

Versatile and results-driven Full Stack Developer with over 6 years of experience designing, developing, and scaling high-performance web applications and automation solutions. Specialized in **SaaS, FinTech, and E-commerce platforms** using PHP (Laravel, CodeIgniter), Python (Django, FastAPI), and modern JavaScript technologies (Node.js, Express.js). Experienced in building responsive front-end applications with React, Next.js, Vue.js, Tailwind CSS, and Bootstrap, alongside robust backend systems, RESTful APIs, and third-party integrations. Proven expertise in web scraping and browser automation using Selenium and Playwright, with a strong focus on performance optimization, scalable architecture, and delivering secure, production-ready solutions.

TECHNICAL SKILLS

Backend Frameworks: Node.js, Express.js, Laravel, CodeIgniter, Django, FastAPI

Languages: PHP, Python, SQL, JavaScript, TypeScript, Bash

Databases: MySQL (Relational), PostgreSQL, MongoDB (NoSQL)

Tools & DevOps: RESTful APIs, Git / Version Control, CI/CD, Docker, Kubernetes, AWS, Azure, Google Cloud

Frontend Frameworks: React, Vue.js, Livewire, Next.js, Tailwind CSS, Bootstrap, jQuery

CMS Platforms: WordPress (Custom Themes & Plugins)

Automation & Scraping: Selenium, Playwright, Scripting

PROFESSIONAL EXPERIENCE

Backend Developer | CodeNomad

2023 – PRESENT

- Architect and develop high-performance backend logic, secure RESTful APIs, and efficient database architectures for web solutions.
- Build automated data collection workflows utilizing Python, Selenium, and Playwright to handle complex web systems.
- Collaborate within engineering teams to deploy features while maintaining strict code quality and version control via Git.

PHP & WordPress Developer | Crest Technosoft

2019 – 2022

- Developed, optimized, and maintained responsive web applications using PHP, Laravel, and CodeIgniter.
- Engineered custom WordPress solutions, including theme customizations, plugin integrations, and site optimizations.
- Partnered with design and marketing teams to turn user-facing interfaces into fully interactive experiences.
- Conducted rigorous debugging and system testing routines to ensure high-quality software delivery.

PROJECTS

[WidophRemit / FinTech SaaS Platform]

Python (Django), React (Vite.js)

- Developed a FinTech SaaS platform with role-based access control, permission management, and integration of 5+ payout gateways for secure international remittance processing.
- Solved challenges in multi-gateway transaction handling and user authorization by implementing scalable APIs, validation workflows, and comprehensive transaction monitoring.

[Lead Management System / SaaS]

PHP (CodeIgniter 4), HTML, CSS, JavaScript

- Built a SaaS-based Lead Management System featuring role-based permissions, employee time tracking, project progress monitoring, and task assignment workflows.
- Addressed challenges in team productivity tracking and access control through automated task management, progress validation, and centralized administrative dashboards.

EDUCATION

Bachelor of Computer Applications (BCA)

Panjab University

LANGUAGES

Punjabi: Fluent | **English:** Intermediate | **Hindi:** Intermediate
